User Concepts in ACF2™: Foundations 200

ACF2™ for z/OS

Type	🖵 Web-Based Training
Length	25 min
Code	06ACF20190

AUDIENCE
• Security Administrator
• Auditor
• Implementer

Course Overview

The objective of this course is for learners to gain an understanding of the LID records and UID strings, develop a basic understanding of role-based access control and use that knowledge to display LID records and the ACF2™ commands associated with LID records.

This course is separated into five sections, which you can complete at your own pace:

- LID Records
- UID String
- Display LID Records
- Role-Based Access Control
- Course Summary
