Compliance Event Manager
Version 6.0

COURSE TYPE, LENGTH, & CODE

- Web-Base Training (WBT.)
- 20 Minutes
- 06CEM10010

Course Overview

Compliance Event Manager continuously monitors your mainframe environment for a wide range of security-related events and notifies you of these events when it detects them.

This course provides an overview of the Compliance Event Manager (CEM) solution.

This Course Will Show You How To:

- Describe the components of Compliance Event Manager
- Describe the Compliance Event Manager architecture
- Navigate the Compliance Event Manager User Interface
