

CA Cleanup for z/OS: Introduction 100

EDUCATION COURSE DESCRIPTION

SUPPORTED PRODUCT

RELEASE(S)

CA Cleanup
Release 12.1 and prior releases

COURSE TYPE, LENGTH, & CODE

- Web Based Training (WBT)
- 15 Minutes
- 06CLN10010

Course Overview

CA Cleanup reduces the effort and pressure associated with maintaining current regulatory, statutory, and audit requirements. It does this by removing obsolete, unused, redundant, and excessive access rights through easily automated, virtually unattended, and continuous cleanup of mainframe security databases CA ACF2™, CA Top Secret®, and IBM RACF®.

This course provides a brief introduction of CA Cleanup as one of several Web-Based Training courses that contain the same information as the CA Cleanup Instructor-Led Training.

This Course Will Show You How To:

- Describe the Broadcom vision for Mainframe security.
- Describe the challenges in maintaining a secure Mainframe environment and how the CA Cleanup solution can help.
