

# CA Cleanup for z/OS: Product Components 200

## EDUCATION COURSE DESCRIPTION

### SUPPORTED PRODUCT

#### RELEASE(S)

CA Cleanup  
Release 12.1 and prior releases

#### COURSE TYPE, LENGTH, & CODE

- Web Based Training (WBT)
- 15 Minutes
- 06CLN20010

## Course Overview

CA Cleanup reduces the effort and pressure associated with maintaining current regulatory, statutory, and audit requirements. It does this by removing obsolete, unused, redundant, and excessive access rights through easily automated, virtually unattended, and continuous cleanup of mainframe security databases CA ACF2™, CA Top Secret®, and IBM RACF®.

This course provides details of CA Cleanup's basic components and how CA Cleanup works. This course is one of several Web-Based Training courses that contain the same information as the CA Cleanup Instructor-Led Training.

## This Course Will Show You How To:

- Describe the working design of CA Cleanup.
- Describe the CA Cleanup components and their functionality.
