

# Datacom™ Datadictionary – Advanced Digital Badge

Type  Digital Badge  
Length 60 min  
Code 06DCM2007E

## AUDIENCE

- System Administrator
- System Programmer
- Traditional DBA

## Course Overview

Earners of the badge are Administrators, System Programmers, and Application Developers who have a thorough understanding of Datacom™ Datadictionary functions. The individual can demonstrate an understanding of how to use Datacom™ Datadictionary to create, manage and maintain Datacom/DB Multi-User Facility User Database resources. By acquiring this badge, you understand how to use: Datadictionary Key Concepts; DDOL; ENTDISPL; ENTMAINT; and Datadictionary Batch Utilities.

For a complete list of the earning criteria for this badge, see the [Datacom™ Datadictionary - Advanced](#) digital badge description.
