# Transitioning Report Distribution From CA Bundl® to CA Deliver™ 200

EDUCATION COURSE DESCRIPTION

## SUPPORTED PRODUCT RELEASES
CA Deliver 14.0

## COURSE TYPE, LENGTH, & CODE
- Web-Based Training (WBT)
- 15 minutes
- 06DLV20020

## PREREQUISITES
- Familiarity with the CA Bundl Main Table Administration entry panel

- Understand how report definitions are managed in CA Bundl

## WHO SHOULD ATTEND
- CA Bundl report administrators who are transitioning to CA Deliver report distribution

## Course Overview

This brief micro-learning course is designed to illustrate how the report distribution functions from CA Bundl have been re-imagined using CA Deliver functionality that enables you to significantly reduce the administrative overhead of dynamic report distribution.

## This Course Will Show You How To:

- Explain how CA Bundl functionality such as the Standard Translation File (STF) table and the Standard Rule File (SRF) table correspond to distribution tables in CA Deliver.

- Describe how the variables and operators used in CA Bundl correspond to the use of variables and operators in CA Deliver.
