

# CA Workload Automation ESP Edition Foundations: Customizing Applications 200

## EDUCATION COURSE DESCRIPTION

### SUPPORTED PRODUCT RELEASES

CA Workload Automation ESP Edition Version 12.0

### COURSE TYPE, LENGTH, & CODE

- WBT
- 15 minutes
- 06ESP20060

### WHO SHOULD ATTEND

- Administrators and Operators who work with applications in CA Workload Automation ESP Edition

### RELATED COURSES

- CA Workload Automation Workstation for ESP Overview: Workload Editor 100 (06ESP10060)
- CA Workload Automation ESP Edition Foundations: Understanding Applications 200 (06ESP20020)
- CA Workload Automation ESP Edition Foundations: Understanding Procedures 200 (06ESP20030)

## Course Overview

Hosted on z Systems™, CA Workload Automation ESP Edition (CA WA ESP Edition) utilizes an object-oriented architecture to reduce and simplify scheduling definitions. Operations and application development teams can easily define schedules and calendars once and reuse them many times.

This course is designed to provide the next generation of CA WA ESP Edition users with a high-level understanding of how to customize an application.

## This Course Will Show You How To:

- Explain the differences between manual and external jobs.
- Describe the role of job details, job defaults, and optional predecessor specifications.
- Understand the purpose of release conditions, sub-applications, and the APPLJOB command.
- Describe the role of time dependencies and condition codes.
