Introduction to ESP Workload Automation Architecture and Terminology

EDUCATION COURSE DESCRIPTION

COURSE TYPE, LENGTH, & CODE
- WBT
- 30 minutes
- 06ESP20130

WHO SHOULD ATTEND
- Workload Operator
- Workload Scheduler
- Workload Administrator

RESOURCES
- Product Documentation
- Mainframe Education Community
- ESP Workload Automation Community
- More ESP Training for Schedulers and Operators

Course Overview

Hosted on z Systems™, ESP Workload Automation (ESP) utilizes an object-oriented architecture to reduce and simplify scheduling definitions. Operations and application development teams can easily define schedules and calendars once and reuse them many times.

This 30-minute course is designed to introduce the product architecture and terminology to anyone who is new to ESP.

This Course Will Show You How To:

- Describe the ESP Workload Automation architecture.

- Identify and understand the product terminology.
