

# CA File Master Plus for DB2 for z/OS: User Basics in the Eclipse UI 200

## EDUCATION COURSE DESCRIPTION

### SUPPORTED PRODUCT

#### RELEASE(S)

CA File Master Plus for DB2 for z/OS

Version 12.0

### COURSE TYPE, LENGTH, & CODE

- Web-based Training (WBT)
- .50 hour
- 06FMS20150

### PREREQUISITE(S)

- Familiarity with DB2 databases

### WHO SHOULD ATTEND

- Database Administrator
- Developer
- QA/QC Tester
- Database Analyst

## Course Overview

File viewing and data manipulation are critical aspects of testing and resolving problems. CA File Master™ Plus for DB2 for z/OS Release 9.1 (CA File Master Plus for DB2 for z/OS) is a DB2 database data manipulation tool that hastens table row editing and data creation.

CA File Master Plus for DB2 for z/OS enables you to work interactively with ISPF panels and a graphical Eclipse-based interface, or issue commands in batch. You can easily view and edit tables and views, make quick changes to production or test databases, and populate test databases.

Using the step-by-step demonstrations and simulations, this course shows you how to work with databases using the Eclipse interface.

## This Course Will Show You How To:

- Browse and edit databases using the Eclipse UI

## Course Agenda

### **Module 1: Work with Databases Using the Eclipse UI**

- Get started with the Eclipse UI
- Configure the layout filter
- Browse a database
- Edit a database
