

IDMS™: The ADS Language - Application Program Interfaces (API) 200

EDUCATION COURSE DESCRIPTION

COURSE TYPE, LENGTH, & CODE

- WBT
- 48 Minutes
- 06IDM20900

WHO SHOULD ATTEND

- Customers

Course Overview

This course shows you how to code Dialogs that use any of the APIs supported by the ADS language, including APPC, OSCaR, TCP/IP, Web Services, MQ Adapter, and SQL. It also includes a demonstration of how to code an ADS Dialog that uses SQL API.

Note: If you'd like to share your ideas for Broadcom Mainframe product training, subscribe to the [Mainframe Education Community](#), where we'll share calls for input.
