IDMS™: The ADS Language - ADS/Online and Mapping Batch Utilities 200

Type	⌨ Web-Based Training
Length	20 min
Code	06IDM20930

AUDIENCE
• New to the Mainframe DBA
• New to the Mainframe Developer
• Traditional MF Developer

Course Overview

This course shows you how to use the "Batch Utilities" within the ADS/Online and IDMS Mapping products. The batch utilities within ADS/Online will be executed in either the ADS Runtime Environment or the ADS Application Component Utilities. Meanwhile, the online mapping utilities comprise the batch map compiler or the batch map utility.

Note: If you'd like to share your ideas for Broadcom Mainframe product training, subscribe to the Mainframe Education Community, where we'll share calls for input.
