

# IDMS™: The ADS Language - Using ADS Dialogs in SQL Procedures

|        |  |
|--------|--|
| Type   |  Web-Based Training |
| Length | 50 min   |
| Code   | 06IDM20950   |

## AUDIENCE

- New to the Mainframe DBA
- New to the Mainframe Developer
- Traditional MF Developer

## Course Overview

This course shows you how to use SQL Procedures within the ADS/Online and IDMS Mapping products. In this course, you will be able to code SQL procedures, develop an ADS Dialog to be used in an SQL procedure and finally clone your existing (map-based) Dialogs for use as SQL procedure programs.

**Note:** If you'd like to share your ideas for Broadcom Mainframe product training, subscribe to the [Mainframe Education Community](#), where we'll share calls for input.
