z/OSMF – Introduction, Process, and Impact to Existing Customers 200

EDUCATION COURSE DESCRIPTION

SUPPORTED PRODUCT RELEASES
- [Broadcom Mainframe Products using z/OSMF for Software Management](#)

COURSE TYPE, LENGTH, & CODE
- WBT
- 3.5 hours
- 06MFO20270

WHO SHOULD ATTEND
- System Programmers

Course Overview

At Broadcom, we are changing the way software is managed for the entire Mainframe platform. This initiative is a joint effort with the other major Mainframe vendors. As a result of this initiative, Mainframe products will be installed, maintained, configured, and deployed via the IBM z/OS Management Facility (z/OSMF).

This course contains five videos that were originally delivered as Broadcom SME-hosted webinars to a Broadcom Communities audience in 2020. Each webinar is between 30-60 minutes.

The following topics are covered:

- CA Mainframe Software Manager & New Standard For Mainframe Software Management (30 minutes)

- Software Update: Modernizing the Maintenance of z/OS Software (50 minutes)

- Make Your Transition to Software Maintenance in z/OSMF Simple (40 minutes)

- Software Configuration: Automating the Configuration of z/OS Software (50 minutes)

- Software Installation: Simplifying the Acquisition and Deployment of z/OS Software (45 minutes)
