---

## PRODUCT RELEASE

MICS Resource Management

---

## COURSE TYPE, DURATION & COURSE CODE

- Web Based Training (WBT)
- 1.25 hours
- Course Code: 06MIC20140

---

## PREREQUISITES

CA MICS r12.x: Admin Foundations 200

Course Code 06MIC20130

1 hour

---

## WHO SHOULD ATTEND

- System Administrators
- Project Manager
- IT Manager
- Project Management Officer
- Financial Administrator

## Course Overview

The CA MICS Resource Management: Installation, Configuration, and Operations course provides an in-depth review of the rich suite of configuration parameters available for CA MICS implementation and customization. These parameters allow you to configure CA MICS to meet the challenges unique to your organizations resource management requirements.

---

## What You Will Learn

- Establish, launch, and configure the online CA MICS Workstation Facility (MWF)
- Define parameters to control the CA MICS JCL generation process
- How to tailor the database content
- How to generate CA MICS components
- Define and interpret unit-level parameters

---

## For Managers

This course is targeted for both your CA MICS administrator and any staff responsible for IT capacity planning and performance analysis. Understanding CA MICS customization parameters allows you to configure you CA MICS deployment to best meet your IT resource management requirements.
