

CA MICS: Advanced Administration 200

Course Overview

This course takes the MICS administrator beyond the basics. Best practices, gleaned from decades of resource management experience are presented and explained. The course demonstrates how to use internal CA MICS administrator utilities to fine tune and optimize your CA MICS deployment. And finally, a top to bottom explanation is provided of the CA MICS interfaces used to acquire, apply, and audit maintenance and product enhancements for your CA MICS installation.
