SUPPORTED PRODUCT RELEASES

CA NetMaster® Network
Management for TCP/IP
Version 12.2

COURSE TYPE, LENGTH, & CODE

- WBT
- 15 minutes
- 06NMR10200

WHO SHOULD ATTEND

- Network Engineers
- Information Security
Professionals

Course Overview

The CA NetMaster® Web Portal is a web-based application that provides a single point from which to access critical CA NetMaster tools and services.

This course is designed to help you familiarize yourself with the Security view in the CA NetMaster Web Portal.

The Security view gives the information security and network management staff a single-pane of reference devoted specifically to network security management.

This Course Will Show You How To:

- Describe the CA NetMaster® Web Portal.
- Log in, access product help, and navigate to views.
- Explore the Home and Summary views.
