

# CA NetMaster® Network Management for TCP/IP Network Diagnostics 200

## EDUCATION COURSE DESCRIPTION

### SUPPORTED PRODUCT RELEASES

CA NetMaster® Network Management for TCP/IP Version 12.2

### COURSE TYPE, LENGTH, & CODE

- Delivery Method: WBT
- Duration: 30 minutes
- 06NMR20160

### PREREQUISITES

- CA NetMaster® Network Management for TCP/IP Product Navigation 100 06NMR10100

### WHO SHOULD ATTEND

- Network Administrators
- Network Operators

## Course Overview

CA NetMaster® Network Management for TCP/IP provides for the management and monitoring of your network infrastructure, devices, events and connections to facilitate high availability and performance for TCP/IP-enabled mainframe applications. By monitoring network health, tuning performance and proactively diagnosing and fixing issues before they're likely to affect business operations, the product helps you achieve reliable network connectivity.

This course is designed to teach you how to use CA NetMaster® Network Management for TCP/IP (CA NetMaster NM for TCP/IP) to obtain diagnostic information that can help you identify problems with your network.

## This Course Will Show You How To:

- Use the ping and traceroute functions to perform basic diagnostic tests.
- Identify unsecured or improperly secured connections.
- Troubleshoot slow response times.
- Obtain diagnostic information about your connections.
- Obtain IP security information to confirm that your IPsec is functioning as expected.
