BROADCOM®

CA NetMaster® Network Management for TCP/IP: Introduction to Event Detectors 200

EDUCATION COURSE DESCRIPTION

SUPPORTED PRODUCT RELEASES
CA NetMaster® Network Management for TCP/IP Version 12.2

COURSE TYPE, LENGTH, & CODE
- WBT
- 15 minutes
- 06NMR20260

PREREQUISITES
- CA NetMaster® Network Management for TCP/IP Product Navigation 100 06NMR10100
- CA NetMaster® Network Management for TCP/IP Monitoring Your Network 200 06NMR20170

WHO SHOULD ATTEND
- Network Administrators

Course Overview

CA NetMaster® Network Management for TCP/IP (CA NetMaster NM for TCP/IP) provides for the management and monitoring of your network infrastructure, devices, events and connections to facilitate high availability and performance for TCP/IP-enabled mainframe applications. By monitoring network health, tuning performance and proactively diagnosing and fixing issues before they're likely to affect business operations, the product helps you achieve reliable network connectivity.

This course is designed to introduce you to CA NetMaster NM for TCP/IP event detectors and features the TCP Security Level Event Enhanced (TCPSECE) detector. Event detectors allow you to monitor specific types of system events, generate alerts, and take automated actions when these events occur.

This Course Will Show You How To:

- Identify the different types of event detectors.

- Monitor system events using event detectors.
