WHO SHOULD ATTEND

- Customers

Course Overview

This course covers the renewal process for certificates signed by an external certificate authority, how to understand a Certificate Authority and a brief overview of an External Certificate Authority. It will also identify when a certificate is about to expire and provide renewal instructions for all three mainframe security products.

Note: If you'd like to share your ideas for Broadcom Mainframe product training, subscribe to the [Mainframe Education Community](#), where we'll share calls for input.
