RELEASE(S)

CA 7 Workload Automation
R12.x

COURSE TYPE, LENGTH, & CODE

- Web-Based Training
- 20 minutes
- 06SEV20300

Course Overview

CA 7 Workload Automation automates many of the labor-intensive tasks associated with workload management and monitoring for the Z Systems and supports an agile and business-centric IT environment.

This course introduces the new users to the mechanisms available to define Workloads, the two interfaces (Web Client and 3270) of CA 7, and how to define both mainframe and distributed workloads.

This course is part of a larger bundle of Web-Based Training courses that contains the same information as the Instructor-Led Training 06SEV20081.

This Course Will Show You How To:

- Understand the various mechanisms available to define workloads
- Explain the order of items when defining the workload
- Identify the information that is required when looking to define new workloads to CA 7
- Set up basic mainframe and distributed job definitions
