COURSE TYPE, LENGTH, & CODE

- Web-Based Training
- 15 minutes
- 06SEV20320

Course Overview

CA 7 Workload Automation automates many of the labor-intensive tasks associated with workload management and monitoring for the Z Systems and supports an agile and business-centric IT environment.

This course explains the role and different types of calendars in job scheduling and provides a demonstration of creating and maintaining calendars in both Web Client and 3270 interfaces.

This course is part of a larger bundle of Web-Based Training courses that contains the same information as the Instructor-Led Training 06SEV20081.

This Course Will Show You How To:

- Explain the important role of calendars in job scheduling
- Describe the concept of adding a new calendar with batch methodology
- Differentiate online and perpetual calendars
- Define and maintain calendars with 3270 or Web Client
