Course Overview

CA 7 Workload Automation automates many of the labor-intensive tasks associated with workload management and monitoring for the Z Systems and supports an agile and business-centric IT environment.

This course introduces event scheduling as an effective alternative to scheduling workloads and provides a step-by-step walkthrough using both Web Client and 3270.

This course is part of a larger bundle of Web-Based Training courses that contains the same information as the Instructor-Led Training 06SEV20081.

This Course Will Show You How To:

- Describe the concept of event-based scheduling
- Use triggers to schedule workloads via the Web Client or 3270
