

CA 7 Workload Automation: Dependencies and Requirements 200

EDUCATION COURSE DESCRIPTION

SUPPORTED PRODUCT RELEASE(S)

CA 7 Workload Automation
R12.x

COURSE TYPE, LENGTH, & CODE

- Web-Based Training
- 20 minutes
- 06SEV20350

Course Overview

CA 7 Workload Automation automates many of the labor-intensive tasks associated with workload management and monitoring for the Z Systems and supports an agile and business-centric IT environment.

This course introduces the concepts of predecessors and walks you through defining CPU Job, Data Set, and User Memo Form as predecessors with both Web Client and 3270.

This course is part of a larger bundle of Web-Based Training courses that contains the same information as the Instructor-Led Training 06SEV20081.

This Course Will Show You How To:

- Understand the various predecessor types that are supported by CA 7
- Define various predecessor types
- Understand the concept of negative dependencies
- Understand the concept of conditional dependencies
