Course Overview

CA 7 Workload Automation automates many of the labor-intensive tasks associated with workload management and monitoring for the Z Systems and supports an agile and business-centric IT environment.

This course introduces learners to Automatic Recovery Facility (ARF), and how it can be used in a particular environment.

This course is part of a larger bundle of Web-Based Training courses that contains the same information as the Instructor-Led Training 06SEV20081.

This Course Will Show You How To:

- Explain the basic uses of the Automated Recovery Facility feature of CA 7
- Determine possible applications for the ARF functionality within your own environment
