

CA 7 Workload Automation: Monitoring and Managing 200

EDUCATION COURSE DESCRIPTION

SUPPORTED PRODUCT RELEASE(S)

CA 7 Workload Automation
R12.x

COURSE TYPE, LENGTH, & CODE

- Web-Based Training
- 35 minutes
- 06SEV20390

Course Overview

CA 7 Workload Automation automates many of the labor-intensive tasks associated with workload management and monitoring for the Z Systems and supports an agile and business-centric IT environment.

This course introduces how to use the display commands to monitor the active workload and research the cause of problems, and how to use action commands to manage the active workload and correct scheduling issues

This course is part of a larger bundle of Web-Based Training courses that contains the same information as the Instructor-Led Training 06SEV20081.

This Course Will Show You How To:

- Use the display commands to monitor the active workload and research the cause of problems
- Use the action commands to manage the active workload and correct scheduling issues
- Forecast workloads
- Restart Abended jobs
- Activate on request workloads
