SUPPORTED PRODUCT RELEASES

CA Spool™ Version 14.0

COURSE TYPE, LENGTH, & CODE

- WBT
- 30 minutes
- 06SPO20020

WHO SHOULD ATTEND

- End Users

Course Overview

CA Spool™ is a solution that securely manages your business-critical print and report delivery requirements across networks, platforms, and locations. CA Spool provides nonstop operation as it collects reports from multiple sources (including z/OS, Windows, Linux, and UNIX), while offering enterprise-wide spooling and print capabilities. CA Spool enhances your current spool environment, providing a central point of control over day-to-day print management issues and securing the distribution of important data.

This course is designed for CA Spool end users and consists of 30-minute recorded presentation designed to explain and demonstrate the process of installing and operating the CA Spool plug-in for the Zowe CLI.

This Course Will Show You How To:

- Explain the purpose of Zowe and Zowe plug-ins.
- Install and operate the CA Spool plug-in for the Zowe CLI.
