

CA Spool™: Upgrading from Version 12.0 to Version 14.0 200

EDUCATION COURSE DESCRIPTION

SUPPORTED PRODUCT RELEASES

CA Spool™ Version 14.0

COURSE TYPE, LENGTH, & CODE

- WBT
- 45 minutes
- 06SPO20040

WHO SHOULD ATTEND

- Administrators
- System Programmers

Course Overview

CA Spool™ is a solution that securely manages your business-critical print and report delivery requirements across networks, platforms, and locations. CA Spool provides nonstop operation as it collects reports from multiple sources (including z/OS, Windows, Linux, and UNIX), while offering enterprise-wide spooling and print capabilities. CA Spool enhances your current spool environment, providing a central point of control over day-to-day print management issues and securing the distribution of important data.

This course is designed for anyone responsible for CA Spool installation and maintenance. This course consists of a recorded presentation designed to help guide students through the process of upgrading from CA Spool™ Version 12.0 to CA Spool™ Version 14.0. The presentation includes a demo of the installation process.

This Course Will Show You How To:

- Describe the installation and upgrade process.
- Identify the new, updated, and deprecated product features.
