EDUCATION COURSE DESCRIPTION

SUPPORTED PRODUCT RELEASE(S)
Trusted Access Manager for Z Release 1.1

COURSE TYPE, LENGTH, & CODE
- Web-Based Training (WBT.)
- 15 Minutes
- 06TAM10010

Course Overview

Trusted Access Manager for Z helps deliver trusted systems and improve business efficiency through comprehensive privileged access management for your mainframe.

By eliminating the need for shared credentials, working with existing tools, and producing forensics on all privileged user activity, you stay in complete control over mission-essential mainframe data.

This course provides an overview of the Trusted Access Manager for Z solution.

This Course Will Show You How To:

- Describe customer challenges and the TAMz solution for managing privileged identities on the mainframe.

- Describe the basic terminology and concepts of TAMz.

- Give examples of typical TAMz use cases from the user, administrator, and auditor perspectives.
