Course Overview

A typical z/OS organization processes thousands of tape files daily. These files represent priceless corporate data that needs to be completely protected throughout its lifecycle. CA 1 automates day-to-day tape management while providing comprehensive protection against destruction of tape files. Apart from tape data protection it also enables library management and automation of typical z/OS organizations.

In this course, you will learn about the reports supplied by CA 1 and the basics for writing customized reports using TMSGRW.

This Course Will Show You How To:

- Describe and use CA 1 utilities for specific TMC and audit batch displays.
- Explain the standardized reporting programs.
- Explain how TMSGRW can provide user-defined reports.
