

TPX™ Session Management Introduction for New Users 100

EDUCATION COURSE DESCRIPTION

COURSE TYPE, LENGTH, & CODE

- WBT
- 30 Minutes
- 06TPX10060

WHO SHOULD ATTEND

- Customers

Course Overview

This course will explain session management and how the TPX session manager makes your job easier. You will learn to log into TPX, start sessions, and access your applications. You will also use TPX commands to lock and unlock your terminal, send and receive messages through TPXMAIL, and access online help. In addition, you will learn about some useful TPX features that may be available at your site.

Note: If you'd like to share your ideas for Broadcom Mainframe product training, subscribe to the [Mainframe Education Community](#), where we'll share calls for input.
