EDUCATION COURSE DESCRIPTION

SUPPORTED PRODUCT RELEASES

CA Vantage™ Storage Resource Manager
Version 14.0

COURSE TYPE, LENGTH, & CODE

- Delivery Method: WBT
- Duration: 15 minutes
- 06VSR20090

PREREQUISITES

- CA Vantage™ Storage Resource Manager: Getting Started with the Mainframe Team Center - Management Interface 200 (06VSR20020)
- Understanding of basic storage management concepts
- Familiarity with z/OS

WHO SHOULD ATTEND

- System Administrators
- System Programmers
- Operators
- IT Managers

Course Overview

CA Vantage™ Storage Resource Manager (CA Vantage SRM) centrally manages complex storage environments to help ensure that critical storage assets are fully optimized, data is protected, and application outages are eliminated. Proactive, policy-based exception management automates routine manual functions to increase personnel productivity and improve service levels.

This course shows you how to monitor CA Vantage SRM and the z/OS system using objects in the Mainframe Team Center - Management interface to CA Vantage SRM.

This Course Will Show You How To:

- Monitor CA Vantage SRM operations
- Identify the objects that you can use to analyze z/OS resources
