

# Vantage™: Getting Started with Mainframe Team Center - Management 200

## EDUCATION COURSE DESCRIPTION

### SUPPORTED PRODUCT RELEASES

Vantage™ Storage Resource Manager Version 14.1

### COURSE TYPE, LENGTH, & CODE

- WBT
- 30 minutes
- 06VSR20120

### WHO SHOULD ATTEND

- System Administrators
- System Programmers
- Operators
- IT Managers

### PREREQUISITES

- Understanding of basic storage management concepts
- Familiarity with z/OS

## Course Overview

Vantage™ Storage Resource Manager (Vantage) centrally manages complex storage environments to help ensure that critical storage assets are fully optimized, data is protected, and application outages are eliminated. Proactive, policy-based exception management automates routine manual functions to increase personnel productivity and improve service levels.

This course prepares you to create and use dashboards and user views, set private hosts, and customize objects within Mainframe Team Center – Management. This course also introduces the PDS Member Editor.

## This Course Will Show You How To:

- Navigate using the User Menu, Navigation Pane, and Dashboards
- Explain the differences between public and private hosts
- Create a private host
- Understand factory dashboards versus user-defined public or private dashboards
- Create and modify a dashboard or user view
- Understand the differences between dashboards and user views
- Export a dashboard chart
- Import and export dashboard definitions
- Customize object data collection and presentation
- Evaluate, view, and perform actions on an object
- Understand, at a high-level how to use the PDS Member Editor
