

# WatchTower Platform™: Installation Overview – Roles and Responsibilities 200

## EDUCATION COURSE DESCRIPTION

### COURSE TYPE, LENGTH, & CODE

- WBT
- 5 minutes
- 06WTP20040

### WHO SHOULD ATTEND

- Systems Programmer
- Cloud Engineer

### RELATED COURSES

- WatchTower Platform™  
z/IRIS: Configure the z/IRIS  
Client 200 (06WTP20070)
- WatchTower Platform™  
z/IRIS: Install and Configure  
an IronTap Docker Container  
200 (06WTP20080)
- WatchTower Platform™:  
Overview of the Mainframe  
Installation Requirements and  
Process 200 (06WTP20010)
- WatchTower Platform™  
Install the Distributed  
Components (Kubernetes)  
200 (06WTP20020)

## Course Overview

To compete in today's world, enterprises must deliver digital experiences that perform flawlessly in seconds and delight their customers. The challenge is that behind many digital apps are hundreds of interwoven services. As these apps connect with mainframes, they are dramatically increasing the volume of system health tracking data that is generated.

The WatchTower Platform provides a comprehensive picture of mainframe health, allowing you to anticipate failures based on past patterns, prevent small issues from becoming outages, and proactively manage your operations.

WatchTower generates a rich, integrated repository of mainframe telemetry data and utilizes artificial intelligence (AI) and machine learning (ML) to deliver predictive insights for IT operations (AIOps).

By integrating and cross-correlating events, data flows, signals, and key metrics, WatchTower breaks down silos, improves workflows, and enables more efficient monitoring and problem resolution. Additionally, WatchTower augments alerts with pertinent contextual insights and expedites problem identification and resolution by eliminating multiple tool logins.

This brief course is designed to provide Systems Programmers and Cloud Engineers with a high-level overview of their WatchTower Platform installation tasks.

## This Course Will Show You How To:

- Explain, at a high-level, the WatchTower Platform installation tasks that the Systems Programmer and Cloud Engineer will complete
- Identify which WatchTower Platform role-based training is available to you
